

# Mycotoxin/Terpene Workgroup update

---

DEC 7, 2021

A solid green horizontal bar at the bottom of the slide.

# Current Terpene Challenges

---

Regulatory Concerns

Use as Additives

Data user undefined

How do the regulatory agencies want to enforce going forward?

Tangible recommendations vs Policy questions

# Terpene future

---

## MINIMUM NEEDS/RECOMMENDATIONS IDENTIFIED BY WORKGROUP

1. A list
  1. A *possible* list was shared by WSLCB
2. Use of certified reference materials and second-source verification
3. WAC clarity on what a terpene failure is, how it is enforced/remediated, and collection of the data by said agency
4. If accreditation is required, would only be provided for fully-quantitative terpenes
  1. Labs may chose to report non- or semi-quantitated values if they desire

## POLICY QUESTIONS NEEDING ANSWERS IDENTIFIED BY WORKGROUP

1. How is the data currently and/or will be used in the future state?
2. Are there health and/or dosing/potency concerns from the presence of certain terpenes; if so, which Terpenes?
